FOREWARD BY PETER SIDDLE

"When I first saw James playing the ramp shot I thought what the hell is this battler doing. It wasn't until the ball was dispatched over the pine trees that I saw the visionary nature of this shot"

As the authority on playing the "Ramp" shot at the NBCCC I thought I should spread my knowledge through some question and answers on how to best play the shot

- Q) I'm having trouble deciding what ball can to play the ramp shot too? - *Steven Knott (Ringwood)*
- A) This is your first problem, every pill is rampable. Sometimes ramping a slower bowler like M. Gurney is even easier as you have more time to place the shot
- Q) Blokes like you keep ramping me, how can I avoid this devastating shot - *Simon Datson "Blackburn"*
- A) It's a tough one, the only suggestion would be stop bowling pies.
- Q) I saw you playing the reserve ramp with great results in the nets. When will it be ready for a game *Loz "Box Hill"*
- A) I hope to unleash it in next weeks 20/20 match
- Q) Do you get annoyed with people asking for your autograph all the time - *Marcus Hyde "Doncaster"*
- A) I never get annoyed at my Fans
